ABOUT ME

Aspiring Front-End Developer focused on building clean, responsive, and user-friendly websites. I have hands-on experience with HTML, CSS, Tailwind CSS, and JavaScript through developing my personal portfolio. I enjoy turning design ideas into interactive interfaces and am looking for opportunities to learn, collaborate, and contribute to real-world projects.

PROJECTS

Personal Portfolio Website
HTML · CSS · Tailwind CSS · JavaScript
Developed a personal portfolio website to introduce myself, showcase my skills, and present my projects.
- Built responsive layouts for mobile, tablet, and desktop screens.
- Implemented light and dark themes with saved user preferences.
- Added interactive project cards and an animated skills section.
- Created a mobile navigation menu with keyboard support.
- Built a contact form with input validation that prepares an email draft.
- Organized styles into separate component files using Tailwind CSS.

My-Portfolio

SKILL SET

Technical Skills
